LEXINGTON HEARTH

NEW: A TIMELESS

CLASSIC

Our Classic Series mantel exemplifies the timeless style of a traditional wood beam mantel but is made from a proprietary blend of non-combustible materials to provide non-combustible utility for today’s lifestyle.

The gloss finish mimics the look of a smooth sanded oak beam, which showcases the beauty of the natural woodgrain across the mantel and coordinates with virtually any décor.

The name, Classic, denotes a timeless elegance that never goes out of style. This mantel is offered in five foot and seven-foot lengths, and is finished in three standard colors: Walnut, Mahogany, and Honey Oak. The depth is a generous 8 inches with a height of 4 inches giving it a clean, tailored design.

HAND-CRAFTED IN THE USA. MANTEL SIZE, COLOR & WEIGHT MAY DIFFER.

WALNUT HONEY OAK MAHOGANY

ASTM E136 CERTIFIED NON-COMBUSTIBLE
