INSTALLATION
VIDEO

https://www.lexingtonhearth.com/install-video-page

NON-COMBUSTIBLE
ASTM E-136*

WHAT YOU WILL NEED

- Tape Measure
- Adhesive (high temperature)

IF USING A SCREW TO SUPPORT CORBEL

- 1 screw per corbel (use proper screw for mounting surface)
- Power drill with proper masonry bit
- Power screw driver with proper bit

WHAT'S IN THE BOX

2 Lexington Hearth Corbels

INSTALLATION INSTRUCTIONS

STEP 1.

Unpack corbels from box. Remove protective foam.

STEP 2.

Determine the vertical and horizontal location of the corbel. If using a screw, drill hole in the back of each corbel and insert screw into installation surface.

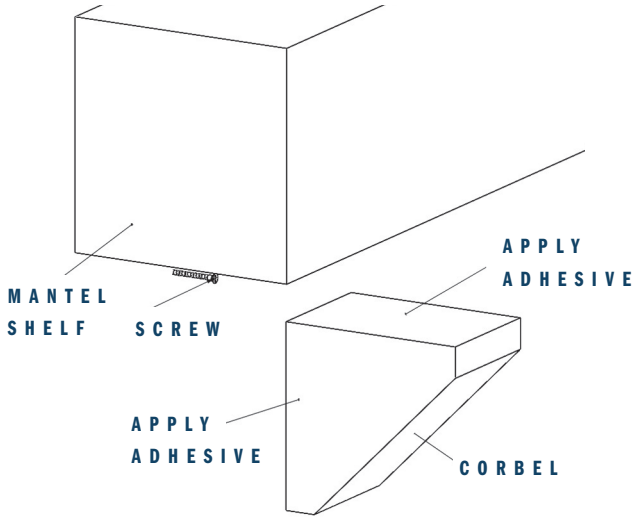
STEP 3.

Apply adhesive to the top and back surfaces of the corbel. If using a screw, slip the pre-drilled hole over the installed screw. See Figure A.

STEP 4.

Support the corbel while the adhesive cures.

CORBEL MOUNT FIG. A



SIDE MOUNT FIG. B
